"The collection of coins has not only become an infatuating and engrossing pursuit among thousands of persons of all ages and either sex, but out of it has grown up an extensive trade, furnishing the means of livelihood to numerous individuals in all our large cities. Prices have risen a hundred fold, in some cases almost incalculably; unreasonably; and speculation has been rife . . .

(from The American Journal of Numismatics, Vol. 1, No. 1, May, 1866.)

OUR TERMS OF SALE

1. All coins are guaranteed genuine. I will replace or issue a refund for any coin found not to be genuine. This is a lifetime guarantee. Over ten years of business I have never had to make good on this promise. But I make it anyway for your protection.

2. All attributions are guaranteed correct. Also a lifetime guarantee. I will issue a refund or if available provide a replacement for any coin found to be mis-attributed.

3. A full thirty day return privilege is allowed on all purchases. Returns may be made for any reason, or for no reason. My business depends on attracting repeat customers. It does neither one of us any good for you to keep a coin with which you are not completely satisfied. I am confident that the overall quality and value of the material I offer here is second to none. This does not mean that you might not order a coin that fails to satisfy your personal taste or desire. It is even possible for me to have missed a defect or to have been optimistic about the grade. It can happen. But it is not my intention. I encourage you to use the thirty days as an approval period. Fell free to show your purchases to other knowledgeable EAC members. Get a second opinion. All sales are final after the thirty day period, though I will certainly consider an extension upon reasonable request.

4. Approval service is also available to established clients. Seven days inspection is allowed on approval service at which time the coin must be returned or funds remitted. Approval sales are considered final after the seven days. Extensions are available upon request. We also accept VISA or MASTERCARD.

5. All orders are sent postpaid.

6. Strict ANA and EAC guidelines are followed in grading.

In addition to strict ANA and EAC guidelines I have introduced "value" or "net" grading into my descriptions. Sharpness or technical grade according to ANA standards is fairly easy to describe with consistency. However most old copper coins have acquired defects over time that detract from the overall desirability of the coin. I describe these defects and deduct from the technical grade based on their presence. As an example a coin might be described: "1805 S-267 VF20. Sharpness of VF30 with smooth brown surfaces, some light pin scratches where corrosion was removed at K I reverse." Here is a coin VF30 by ANA standards but with scratches at one o'clock on the reverse Plainly the coin would be more desirable were the scratches not present. I describe the defects and deduct ten points from the overall grade. The first grade listed represents the net or value grade. Clearly this is an art and elements of subjectivity are inevitable. Where there is no second grade listed it is my opinion that the net grade is the same as the sharpness grade. Perhaps not perfection but whatever marks present have been judged to be consistent with the technical grade of the coin and do not detract from the net grade. The intent is for you to have as close an idea as possible of the overall condition of the coin you may wish to purchase. No unpleasant surprises!

7. I attempt to give a rarity rating for each variety listed. These in large part reflect the current EAC ratings as compiled in Jack Robinson's Copper Quotes. I also offer opinions relative to condition census ratings, die state, and condition rarity. These change constantly as new coins are discovered and reported. I attempt to use the latest data or information available. Still these ratings cannot be 100% accurate and remain a matter of opinion only. Having said this I can also say with confidence that more information and more research is available on Early Copper than any other area of American Numismatics. Large cents have been actively collected and researched for more than one hundred years. One can therefore have a high degree of confidence in the general accuracy of current information. I urge all my clients to form the numismatic library necessary to allow them to make informed judgements and purchasing decisions. It is foolish to invest money in coins if you have not already invested in the books and other sources necessary to the full enjoyment of them.

8. I have yet to meet anyone who has bought coins merely as an investment who has realized a net return upon liquidation. I have, however, met numerous serious collectors, who having formed a discrimination collection over a period of years realized a substantial profit when their collection was ultimately sold. Most collectors find that the enjoyment, education, and friendships formed as a result of their collecting pursuits have been their greatest reward. It is much easier to lose money quickly than to make money quickly in rare coins. If you are not willing to undertake the educational process necessary to make well informed decisions regarding your collection you will almost certainly lose. Coin dealers are often more than willing to give investment advice. As my good friend Jack Robinson (whose collection did very well for him when it was sold in 1989) likes to say: THINK ABOUT IT! When you ask a cat which canary to buy remember his first concern may not be how well it sings. There are may opportunities to do well financially in rare coins. But as with any other medium of investment, success is the result of a combination of knowledge, good timing and the ability to wait for the right time to sell. Commit yourself to the process of becoming an educated collector and you stand a good chance of success.

Wow! This has been a wild 6 months. The C-4 sale in November, the J.R. Frankenfield sale in February and the EAC sale March 31st. This is my first fixed price catalog since November. You should receive this about May 18th and I will be leaving for California May 26th, so please place your orders as soon as possible. As they say, order early and order often.

As you might imagine there are numerous new coins on this list. Included are purchases from the Frankenfield and Chris Kromer Collections, as well as purchases from the EAC sale and a couple of small private collections.

I will be attending the sale of the Jerry Wells collection May 28th at Superior Galleries in California. Also the Long Beach Convention May 29th-June 3rd table #1029. Of course I will be at the ANA in Atlanta. Look for me there.

Thanks to all of your support this past year. It has been a record breaking year for me and for M&G. Please note prices realized for the EAC sale at the end of this catalog. It was one of the most successful sales ever with total sales of over $400,000 and net proceeds to the club of over $25,000.

Please note we are accepting consignments to all future sales. The Colonial Collectors Club sale is scheduled for November in conjunction with Ed Aleo's Bay State Show. The sale will feature the Bud Bibbons Collection of Vermonts.

Brown with some mint red on the peripheries. A small spot of darker tone K12 obverse. Fully lustrous with not trace of rub. Remarkably sharp strike. Traces of die rust in fields as expected. This is far superior to the Dr. Montgomery coin sold at the NY ANA convention and is superior to all but one example I have ever seen. This "restrike" resulted from the mating of an 1811 C-2 obverse die with an 1802 C-2 reverse die. Breen reported a total of twelve examples struck, with only ten specimens known to have survived for today's generation of collectors. A very rare half cent. PROBABLY UNIQUE
DOUBLE STRUCK PROOF 1842

1842 BREEN 1-B R7 PROOF 60+ $10. 500.00
FIRST RESTRIKE, DOUBLE STRUCK. Bluish light steel brown with iridescent overtones of rose and violet and underlying faded red on both sides. The fields are nicely reflective with deep mirrors and no notable hairlines. The only defect is a small carbon spot on top of the outer hairbun. A beautiful proof half cent in its own right, but this piece is double struck, the second strike rotated 5-10 degrees CCW from the first Stars 6-13 have shadow stars between them in the f fields, and clear evidence of the undertype can be seen on the chin, in the field below, on the nose tip, and over the tip of the coronet. Similar evidence of undertype is visible at the leaves under RIC, but it is not nearly as clear as the obverse undertype. This is not your usual chatter strike or the doubling often found on early proofs but a real double strike. Extremely rare as a variety, probably unique as a double struck error. Ex. Superior 5/30/89:5006 (where the double strike was not mentioned)

1847

1847 BREEN 1-C R6- PROOF 62
SECOND RESTRIKE $5850.00
Light steel brown with overtones of rose and bluish steel and 25% of the original mint red, mostly on the obverse. There is a light scuff mark in the field between star 4 and the tip of the nose, a small carbon spot on the rim over star 7, and another in the field touching the bottom of the outer hairbun. The reverse is a tiny speck of carbon over the N in CENT away from choice. The fields are nicely reflective, the reverse mirrors especially deep. Ex. Superior 1/86:319.

1856 BREEN 1-B R4 PROOF 55
COPPER NICKEL $2500.00
Lightly cleaned, now a yellowish tan. The fields are reflective but the mirrors are not deep and they do show fine hairlines. Rather well struck for the copper nickel version, which often comes without a lot of detail due to the harder planchet stock. The only marks a re a tiny spot touching the curl left of star 13, and a shallow flake out of the planchet in the field left of star 11, as struck. Ex. 1988 FUN Sale, Mid American Rare Coin Auctions 1/8/88:1642.

MISSING FRACTION BAR. Sharpness VF20 with microscopic pitting on both sides, mostly in the fields. The roughness is so fine that the surfaces display a decent amount of gloss. Otherwise there are a few light rim bruises on both sides, strongest opposite the chin, over TES, and at M. Fairly glossy chocolate brown with lighter steel brown highpoints. The missing fraction bar feature is clear. LDS with a strong die crack through D reaching the C in CENT. Ex. F.C.C. Boyd 1957-New Netherlands Coin Co. #50, 12/57:967-Lester L. 1795 S-75 R3 VF35 LETTERED EDGE $4750.00
EF40 Chocolate with lighter brown on the devices. Smooth lustrous surfaces. A faint scratch under ME of AMERICA. Another near rim K4 obverse. Well struck with full sharp dentils both sides.

1795 S-76b R1 G6 PLAIN EDGE $ 250.00
Glossy medium brown. The hair details are a bit sharper but portions of the legend are weak; particularly RTY, ST, and MERICA. The date is readable, but the lower half of the 17 is weak. No marks or other defects. M-LDS.

1795 S-76b R1 F15 $ 650.00
Nice light brown with a hard smooth planchet. A tiny planchet fissure K5.

1795 S-76b R1 EF45 $2950.00
AU50 sharpness. Nicely retoned olive tan and brown. A tiny scrape hidden in Liberty's hair. Very sharply struck.

1795 S-77 R3+ VG10 PLAIN EDGE $ 475.00
Nice glossy light to medium brown. The surfaces are smooth and attractive but the planchet does have a void left of the eye and a smaller one in the field off the tip of the nose. The only contact marks are a rim bruise over the B in LIBERTY, a tiny nick under the chin, and a very minor rim bruise at the A in STATES. LDS with swelling left of the date, at ED ST, inside the wreath, and at MER.

1795 S-77 R3+ F12 $ 750.00
Slightly sharper with a rim dent at TA in STATES. Otherwise this cent is choice. Glossy medium brown with lighter brown in protected areas. LDS. A very attractive example for the grade in spite of the rim bruise. Ex. Lillian Willins via Bill Noyes 1/11/92.

1795 S-78 R1 AU50 PLAIN EDGE $3750.00
Glossy steel brown with frosty tan and light brown in protected areas. The surfaces are smooth and lustrous, just a touch of light friction on the highpoints away from mint state. The only marks are a tiny void in the planchet over the end of the pole and a hairline scratch well-hidden in the lower haircurls. MDS with clear die clashmarks on both sides. Nicely struck except for the N in UNITED, which is weak but readable. Ex. Stack's 1/18/89:946.

1796

1796 S-83 OVERSTRIKE

1796 S-83 R4 VG7 $ 475.00
Overstruck, possibly on a TAL cent. Glossy medium brown and chocolate with darker steel brown toning in the protected areas. The obverse is relatively free of marks, but the reverse has some dull nicks plus a scrape from the T in UNITED down into the wreath. MDS. Obviously struck over something, possibly a Talbot Allum and Lee cent. Dentils are visible left of the lower curls and at STAT, something is in the dentils under the bust tip, and part of a letter is in the dentils opposite the tip of the nose. This letter is too small to be from another large cent. Many other traces of undertype, particularly dentils, can be found elsewhere, and their positions indicate the undertype consists of multiple impressions. Diameter is 30 millimeters, which is a bit larger than normal due to the multiple impressions.

1796 S-89 R3 F12 $ 850.00
F15 Steel with lighter devices. A couple hairline scratches under Liberty's neck. Nicely centered with a good strike.

1796 S-90 R6- FR2 UPSET REVERSE $ 395.00
The obverse is slightly better, the reveres weaker. Glossy dark chocolate brown and steel. A couple dull nicks in the field under the chin and some light rim bruises, none notable. The 796 is legible, as is LIBERTY, but no more than 25% of the reverse remains visible. The reverse us upset 180 degrees head to head, as is often the case with this die variety. Ex. NTL Rare Coin Auctions -Henry Hettger.

1796 S-94 R5+ VG7 $1650.00
Black and tan with hair detail equal to F12 or better. Moderately corroded surfaces. A tiny scratch near L of LIBERTY the only notable mark. Decent eye appeal overall for this rare variety.

1796 S-97 R3+ VF20 $5500.00
Sharpness EFs45 but the planchet is covered with microscopic porosity, strongest on the obverse. Free of any contact marks or verdigris, but there is a curious line in the field over the bust tip. This line is shaped like a 6 and may be a piece of very fine wire that was struck into the planchet. Glossy dark steel, nearly black. Called AU50 net F15 and tied for CC#9 in the Noyes census, Bland says AU55 net VF30 and tied for CC#5. Ex. Anderson Dupont,Stack's 9/24/54:127-Bareford-herman Halpern, Stack's 3/16/88:119-Joel Spingarn-Dr. George Ewing-1995 EAC Sale #183-John Whitney, Stack's 5/4/99:1731.

1796 S-103 R4+ VG10 $1350.00
Sharpness F15 or slightly better but the planchet is covered with very fine granularity. The only contact marks are a small nick hidden in the hair under LI and a tiny rim nick over that L. The date is clear and legends bold, especially the LIHERTY error (B punched over an H, not a B over an inverted B as often suggested). Steel brown. The rare version of this popular error. Ex. Bowers and Merena 1/24/90:1084.

1796 S-104 R3+ G4 LIHERTY OBVERSE $ 295.00
Several points sharper but the surfaces are covered with fine porosity, strongest on the obverse. A couple faint hairline scratches are blended into the patina on the obverse. Very dark steel. The date and legends are clear and LIHERTY error bold. MDS. The crack to 2nd T in STATES is clear.

1796 S-104 R3+ VF20+ $7250.00
VF30+ Even dark chocolate. Evenly granular.

1796 S-108 R4 VF25 $3500.00
Sharpness EF40 but the surfaces aren't perfectly smooth. The only marks are a hairline scratch or planchet fissure in the field before the neck and another in the field under the ribbon. Glossy very dark steel brown and olive. MDS. A sharp example of a variety that's difficult to find in high grade, this piece at the lower end of the condition census.

1796 S-110 R3+ VG10+ $ 750.00
VF20+ Medium brown color. But some small rim marks K6, K9, K11 and minor granularity.

1796 S-111 R5- VF25 $2850.00
Sharpness at least EF40 but there are 8 small punchmarks on the obverse and 2 more on the reverse. Small nicks and bruises cover much of the rim on both sides, and there is a short scratch from the leaf under U down to the dentils left of the fraction. Glossy medium brown delicately mottled with frosty light brown and reddish chocolate. Sharply struck EDS, the fields smooth and slightly reflective. The marks are certainly a distraction, but surfaces and details are outstanding, especially for a Draped Bust 1796. Near the lower end of the condition census for this tough variety.

UNIQUE BRONZED 1834 NEWCOMB 7

1834 N-7 R7 PROOF 45
BRONZED $42,500.00
Sharpness near mint state but there are several very light hairline scratches in the left obverse field. There are areas of extremely faint roughness in the field before the face and on the reverse, clearest under the T in CENT. Recolored glossy chocolate brown varying a couple shades on both sides. The special feature of this cent, other than the extreme rarity of the variety, is that it was bronzed similar to the proof cents of 1829. However, the bronzing was not done with the same level of success and apparently was done after striking rather than before. The result is an uneven application of the bronze layer with excess metal around stars 2 & 3 and the adjacent dentils and a line of excess metal slanting down the neck. A few additional less obvious lumps of bronze can be found on the chin, cheek, date, and spaced around the edge. The fields, while slightly reflective, do not display the mirrors normally found on proof cents, and this may be a result of the recoloring or bronzing (or both). Whatever,. the experiment appears to have been limited to this singular example. A classic rarity in the Newcomb series of Middle Date cents, only 8 known total and this bronzed version unique. Called Proof-50 in the Noyes census, Proof 40 in the Bland census, but the number doesn't mean much in this case. Plated in the Noyes book on the cents of 1816-1839. Ex. Peter Mougey-William H. Woodin-Thomas L. Elder #43, 9/1910:184-"Van"-Glenville Coin 10/79-John J. Nicholas, Jr. Superior 2/2/92:582-R.S. Brown, Jr., Superior 1/27/96:597.
